Gathering the World

of Dermatology, Plastic Surgery & Aging Science

We are elated to welcome you to our 26th annual edition of IMCAS World Congress! It has never been more important to gather together and share our discoveries. Together, medicine and industry foster a symbiotic relationship, each driving the other to greater and greater heights of discovery in our mutual field of medical aesthetics. Together, nothing is impossible, and the technology and breakthroughs of tomorrow will be realized as a direct result of today's ambitions.

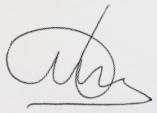

Our Scientific Board works tirelessly to ensure that our congress shares not only the highest quality and factually valid science but the latest developments and areas of expansion in the fields of dermatology, plastic surgery, and aging science. This ensures that every participant walks away with confidence in their new skills, new understandings, and the latest trends in medical aesthetics. There's a session for everyone, with exciting topics such as, but not limited to: clinical dermatology, lasers, hair restoration, skin pigmentation, toxins, body contouring, facelift techniques, and detailed themes on breast surgery! For our practice-minded participants, discover additional sessions on branding, ethics, and economic insights. The program awaits you on page 8!

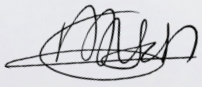

17 rooms, spread across all four levels of the Palais des Congrès, hold 317 learning hours taking place over the next three days, in addition to the Open Stage and the Exhibit. The learning doesn't have to stop once you leave the congress! Connect to IMCAS Live to rewatch all sessions, as much as you want, for the next three weeks.

The Exhibit is filled with the latest innovations this year, available across all four levels of the congress venue, brought to you by our 370 exhibiting companies. Take full advantage of the IMCAS congress experience by meeting face to face with industry leaders and explore potential collaborations to the fullest at tailored events such as our Networking Cocktail Friday evening.

Welcome to our gathering—a celebration of knowledge, a forum for collaboration, and a catalyst for the future of medicine. Let us make the most of these three days to learn, connect, and innovate together.

PROGRAM BREAKDOWN

Scientific Sessions

NON-SPONSORED

IMCAS takes pride in providing information entirely based on medical research. Non-sponsored session content is constructed by the IMCAS Scientific Board and any partnering academic societies, dedicated to ensuring that there are no biases or influences from commercial bodies. These sessions are eligible for CME accreditation.

Scientific Session Under an Unrestricted Educational Grant

NON-SPONSORED

A way for companies to offer financial support, these sessions remain in the non-sponsored category due to educational grants, which are financial donations with no exchange partnership at stake. The scientific content of a granted session is developed entirely by the IMCAS Scientific Board and is eligible for CME accreditation.

Contributed Talks

NON-SPONSORED

Contributing sessions are presentations led by experts who have submitted their abstract for review and have been selected by the Abstract Review Committee for the quality and pertinance of their scientific content. These sessions cover a variety of themes, and while insightful, they are fully developed by the lecturer and therefore not endorsed by IMCAS. You can find them at the Open Stage or in designated sessions in the scientific program.

Sponsored Sessions

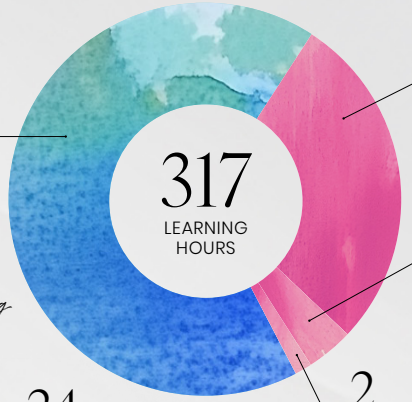

INDUSTRY SYMPOSIA, LIVE DEMONSTRATIONS, NEW TECH, & INDUSTRY LECTURES

SPONSORED

Commercially sponsored, these sessions promote a product or activity on the behalf of the sponsoring company. Sponsored sessions can provide valuable information, but the content is neither developed nor endorsed directly by IMCAS. These sessions are not eligible for CME accreditation, and in accordance with IMCAS' COI policy, they are explicitly identified within the program.

IMCAS FUND

IMCAS Fund promotes scientific progress to address key challenges in dermatology, plastic surgery, and aging science, improving physicians' daily practice worldwide. Acting as a nonprofit intermediary, it collects donations to support selected high-impact projects. The selection committee, composed of renowned medical practitioners, identifies promising initiatives, offering mentorship and financial backing to drive innovation and collaborative learning.

"We want to promote research that goes beyond the limits of current products and market objectives. We don't want just the immediate outcomes, but we want to challenge the community to look at what are the lasting effects of treatments [in our field] in the light of longevity and overall wellness."

Dr. Peter Velthuis, PhD, Dermatologist, Netherlands

GENERAL INFORMATION

ACCIDENTS, DAMAGES, AND LOSSES

IMCAS and the Palais des Congrès are not responsible for any damages and/or losses that may occur during the official conference and social programs. All Congress attendees participate at their own risk and are advised to insure themselves against any loss, accident, or damages that may occur during the conference. Verbal agreements are not considered binding, unless confirmed in writing.

ACCREDITATION

CME credits are available for all medical specialists (and may vary depending on country of practice). Please contact specific national authorities to learn how to validate the European CME credits or convert the credits to their accreditation system. To learn more about obtaining CME credits, please refer to page 24.

- European Accreditation Council for Continuing Medical Education (EACCME®) / 20 CME Credits, Event Code: LEE/2024/01859
- AMA status

The MedTech Europe Code of Ethical Business Practice sets strict, explicit rules regarding the industry's relationship with Healthcare Professionals (HCPs) and Healthcare Organizations (HCOs), including arrangements with consultants, research, and financial support for medical education.

- MedTech European Code of Ethical Business Practice / Event Reference: EMT-24-00374
- Status: Compliant

BADGE ACCESS

IMCAS is a congress created by physicians, for physicians (licensed medical doctors). Access to the congress and sessions is subject to several regulations that aim to guarantee the scientific independence of the congress and preserve it from any commercial bias or influence. A precise badge policy has been implemented specifying the rules of admittance to the different areas of the congress, complying with the criteria required by the CME accreditation organizations and scientific society partners.

According to each badge type, a full or partial access is issued. The purchase of a badge in an individual's name is nontransferable. All badges must be scanned to confirm verification before entering a specific area. Please refer to the registration form for badge categories, types of access, and the IMCAS cancellation policy. IMCAS is authorized to take measures which may lead to the withdrawal of the badge and the denial of access to the congress area if the badge policy is violated.

CERTIFICATE OF ATTENDANCE

Delegates, faculty, and contributing speakers can obtain a Certificate of Attendance at the end of IMCAS World Congress. Each registered participant is asked to fill in the online evaluation form within the next 30 days on www.imcas.com. Once submitted, the Certificate of Attendance will be made available for download.

CHARGING STATIONS

Participants can find charging stations on each Level of the Palais des Congrès throughout the exhibition area.

CLOAKROOM

Coat check is available for all Congress participants to check any garments or personal items for 2€ and can be found on Level 4 (Paris & Neuilly side).

E-POSTERS & MAGAZINE SPOT

A selection of full-size digital touchscreens and printed material featuring the latest scientific publications from the medical aesthetics field, such as the IMCAS Insider and the World Congress daily journals, are available for perusal at this area. Head to Level 3 next to Amphi Bordeaux entrance.

CONCIERGE SERVICES

Concierge services are available to help facilitate participant outings in and around Paris. This service is located on the Paris side of the conference center, near the escalators and towards the session hallways.

CONFLICT OF INTEREST POLICY

IMCAS values transparency in all scientific courses. As part of IMCAS' COI policy, each speaker is required to disclose any sponsorship or commercial bias within their presentation. The COI policy applies to all Congress speakers and contributors involved in the scientific program, including faculty and members of the Scientific Board.

The content within the Scientific Program consists of both sponsored and non-sponsored session material by means of educational grants and direct sponsorships.

CONGRESS FORMAT: IN PERSON & REPLAY

The IMCAS World Congress is hybrid, with both on site and online virtual attendance for the entire duration of the 3-day conference. A 3-week replay of sessions is available exclusively on IMCAS Live (session access will be based on badge type). After the 3-week period, replays will be available for watching on IMCAS Academy (annual premium subscription necessary).
