

# Glacē™ TREATMENT

## The Ultimate 'Glass Skin' Solution

A versatile and comprehensive skin purifying  
treatment designed to cleanse, smooth,  
and illuminate with glass-like clarity

 **CANDELA®**  
Science. Results. Trust.

# Glass-Like Radiance, Powered by Innovation

## Harnesses cutting-edge technology and advanced science to deliver luminous skin

The Glacē™ treatment (pronounced / 'GLASS-y / GLASS-ie / GLASS-ee) is a revolutionary skin purifying experience inspired by the South Korean beauty philosophy of 'glass skin'—the flawless, light-reflecting radiance of healthy, hydrated skin. Combining advanced hydrodermabrasion, dual-mode cupping massage, and LED technology, the Glacē treatment cleanses, smooths, and illuminates for glass-like clarity.

The innovative technology behind the Glacē treatment provides a customizable experience tailored to each individual, with results that reveal naturally luminous, smooth, and visibly refined skin<sup>1,a</sup>. By combining cutting-edge science and indulgent care, the Glacē treatment elevates the art of skincare, delivering clarity, hydration, and beauty that inspires confidence.

## Three advanced technologies for one comprehensive treatment

**Hydrodermabrasion:** Gently cleanses, exfoliates and replenishes skin with precision-engineered diamond tips and GlacēVac™ adjustable closed-vacuum technology, leaving skin clean and hydrated

- Smooths skin texture and boosts hydration with hygienic, precise treatments
- Two-phase serum infusion treatment redefines skincare, offering a fully tailored solution for diverse skin needs

**Dual-Mode Cupping:** Delivers a relaxing cupping massage that detoxifies and contours two areas simultaneously for reduced treatment time<sup>1</sup>

- Two modes: Pulsed mode supports lymphatic drainage to reduce the appearance of puffiness and support the skin's natural detoxification, while continuous mode temporarily enhances contours for a sculpted look
- Synchronized, uniform application improves treatment efficiency and results<sup>1,a</sup>

**LED Treatment:** Pairs GlacēFinish™ LED technology with a soothing biocellulose mesh mask to illuminate and revitalize skin

- Application of red, green, or blue lights calm irritation, and boost radiance
- Ultra-moisturizing biocellulose mesh mask adapts seamlessly to facial contours to soothe skin and promote a post-treatment glow

# The Glacē Treatment Difference

## Efficient, comfortable treatments that reveal skin's glow

Patients today seek more than visible improvements; they desire a luxurious experience that enhances their natural beauty. The Glacē treatment pairs advanced technology with versatile serums to deliver a highly-personalized treatment for various skin types.

- **Advanced Hydrodermabrasion:** Cleanses, exfoliates, extracts and replenishes skin<sup>1,2</sup> for glass-like clarity
- **Diamond Tips:** Precision-engineered, single-use diamond tips elevate hygiene standards and ensure gentle exfoliation tailored for various skin types<sup>2</sup>
- **Quiet Operation:** Ensures a tranquil and relaxing treatment environment<sup>1</sup>
- **Generous Serums:** Targeted formulas provide full coverage for maximum results<sup>1,a</sup>
- **Dual-Mode Cupping GlacēMassage:** Synchronized, uniform application reduces treatment time while promoting detoxification and enhancing symmetry<sup>1,2</sup>
- **Seamless Integration:** Complements a full menu of pre-and post-care professional services<sup>a,\*\*</sup>
- **Flexible Settings:** Adjustable GlacēVac closed vacuum technology, serum flow rates, and diamond exfoliation tips cater to a broad range of skin types and conditions<sup>2</sup>

# The Art of 'Glass Skin'

## Tailored treatments for personalized care

The Glacē treatment's two-phase serum treatments work seamlessly with its advanced hydrodermabrasion. This approach infuses active ingredients into the skin, delivering hydration and targeting individual patient needs. Every treatment is tailored for visible, glowing results<sup>1,a</sup>.

### Phase A: Cleanse, exfoliate, and extract to lay the foundation

#### Balanced Flight

Gently cleanses and decongests oily and acne-prone skin for a smoother, shine-free glow

#### Vitality Blossom

Enriched with vitamins to nourish, hydrate, and energize dull, fatigued skin

### Phase B: Infuse, restore, and hydrate to target unique skin concerns

#### Light Emerge

Antioxidant-rich serum formulated to reduce the appearance of dark spots and blemish for a brighter, more even skin tone

#### Silky Touch

Ultra-soothing serum that restores the skin's barrier function to protect and diminish the appearance of blemishes and provide lasting hydration

#### Total Evolve

Age-defying serum with a chrono-restorative formation to revive skin and fight against the signs of aging

#### Mineral Nurture

Mineral-rich, skin-quenching serum that softens and deeply replenishes for a plumping-like skin boost

# A + B = Glass-like Skin

Cleanse, exfoliate, and extract to lay the foundation

	Oily, Acne-Prone Skin**	Dull, Malnourished Skin**
	Balanced Flight	Vitality Blossom

Infuse, restore, and hydrate to target unique skin concerns

	Blemishes & Uneven Skin Tone**	Sensitive, Reactive Skin**	Dehydrated, Fatigued Skin**	Dry, Aged Skin**
	Light Emerge	Silky Touch	Mineral Nurture	Total Evolve

With your choice of four, precision-engineered diamond tips (Fine [30 µm], Medium [45 µm], Coarse [60 µm], or Blunt [0 µm] levels of abrasion), adjustable suction, and precise infusion rates, the Glacē treatment delivers optimal serum penetration for visible results.<sup>1,2,a</sup>

# Luminous Results, Powered by the Glacē Treatment

Transformative beauty you can see<sup>1,a</sup>

**Reveal the Difference.** The Glacē treatment delivers visible transformations that go beyond expectations. From smoother texture to luminous hydration, the Glacē treatment provides radiant, glass-like skin with every session.<sup>1,a</sup>

## Why the Glacē Treatment Stands Out<sup>1,a</sup>

- **Tailored Treatments:** Adjustable settings, selection of precision-engineered diamond tips available in four levels of abrasion, and targeted serums for precise care
- **Gentle Yet Effective:** Perfect for sensitive areas, the Glacē treatment delivers improvements without harsh abrasives
- **Treatment Versatility:** Treats skin on the face, neck, décolletage, and more, expanding your clinic's offerings and ensuring tailored care
- **Efficient Workflow:** Dual-mode cupping massage streamlines treatment times for faster patient throughput
- **Customizable LED Treatment:** Paired with a soothing biocellulose mesh mask, red, green, or blue lights calm irritation, promote protection of the skin barrier, and boost radiance

What patients are saying<sup>1,a</sup>

reported cleaner skin after treatment

experienced improved hydration

reported an overall improvement in skin health

would book a future Glacē treatment

# Elevate Skin Care with a Glacē Treatment

## The professional treatment for flawless, glass-like skin

Inspired by the South Korean 'glass skin' ideal, the Glacē treatment delivers science-backed results<sup>1,a</sup> that attract new patients while retaining existing ones. With unmatched versatility and customizable protocols, the Glacē treatment can help elevate every practice with:

- **High ROI:** Dual-mode treatment capabilities may help maximize patient throughput, and reduce session times, for improved operational efficiencies<sup>1,2</sup>
- **Enhanced Patient Experience:** Smooth, radiant skin paired with relaxing treatments<sup>1</sup>
- **Improved Workflow:** Streamlined operation helps maximize team efficiency<sup>1,2</sup>
- **Customizable Solutions:** Adjustable settings for suction, serum flow rate, and LED technology allow for personalized treatments tailored to each patient's skin type and concerns<sup>2,a</sup>
- **Unparalleled Support:** Backed by Candela's 50+ years of innovation, clinical expertise, and world-class training
- **Trust:** Selection of single-use, precision-engineered diamond tips ensure hygiene
